ABOUT US

Welcome to Denton-Powell Ltd., your trusted steel fabricators with over 40 years of experience in the industry. As a family-run business, we are dedicated in delivering high-quality and reliable fabrication services to a diverse range of industries.

With expertise in working with mild steel, stainless steel, and aluminum, we offer comprehensive supply, manufacturing, and installation solutions. Whether your project is in the industrial sector, such as construction or food industries, or in the domestic market, we have the skills and capabilities to meet your requirements.

Located in Somerset, our team of skilled fabricators is dedicated to delivering exceptional craftsmanship. We are also flexible and willing to travel, striving to accommodate projects wherever possible.

At Denton-Powell Ltd, our core focus is customer satisfaction. We prioritise building strong relationships through transparent communication and delivering your projects on time, every time. Our commitment to excellence ensures that your project will be completed within the agreed timeline, without compromise.

YOUR TRUSTED STEEL FABRICATORS WITH OVER 40 YEARS OF EXPERIENCE IN THE INDUSTRY

1

Specialising in structural steelwork, architectural steelwork, and stainless steel fabrications. Delivering quality solutions with precision and expertise.

2

Our skilled team creates robust and durable frameworks tailored to meet your specifications for commercial and industrial projects.

3

Crafting stunning steel structures that enhance architectural designs, our experts bring vision to life with meticulous attention to detail.

4

From bespoke staircases to intricate balustrades, our stainless steel fabrications combine aesthetic elegance with exceptional durability.

5

Committed to delivering excellence, our fabrication processes adhere to strict quality standards, ensuring the highest level of craftsmanship.

6

With quick turnaround times and a focus on customer satisfaction, we are your trusted partner for all steel fabrication needs.

OUR CORE SERVICE

DESIGN

Specialising in delivering innovative and aesthetically pleasing designs tailored to meet clients' specific requirements, budgets and time frame.

MANUFACTURING

With advanced technology and skilled craftsmen, we streamline manufacturing for high-quality, cost-effective steel fabrication solutions in the UK.

CONTRACT MANAGEMENT

Our dedicated team excels in managing contracts, ensuring timely project delivery, adherence to specifications, and seamless coordination.

CUSTOMER SUPPORT

We value our customers and provide comprehensive support throughout the project ensuring client satisfaction at every stage of your project.

"From manufacturing to transportation, our bespoke steel fabrications shape the future of multiple industries"

DID YOU KNOW?

At our fabrication company, we have invested in state-of-the-art machinery to enhance our capabilities. With our in-house machinery, we can **efficiently profile sheet metal up to 30mm thickness**, ensuring precise and accurate results. Additionally, our advanced equipment allows us to expertly fold sheet metal, catering to your specific requirements. With these capabilities at our disposal, we can provide you with customised solutions for your fabrication needs, delivering exceptional quality and a seamless finish.

BUILT IN **THE UK**

We understand the significance of choosing British manufacturing for your steel fabrication needs. Our Somerset based facility reduces lead times due to shorter transportation distances. This means faster turnaround times, allowing you to meet project deadlines without compromising quality.

We take pride in British built manufacturing for its exceptional craftsmanship, reliability, and positive impact on the industry.

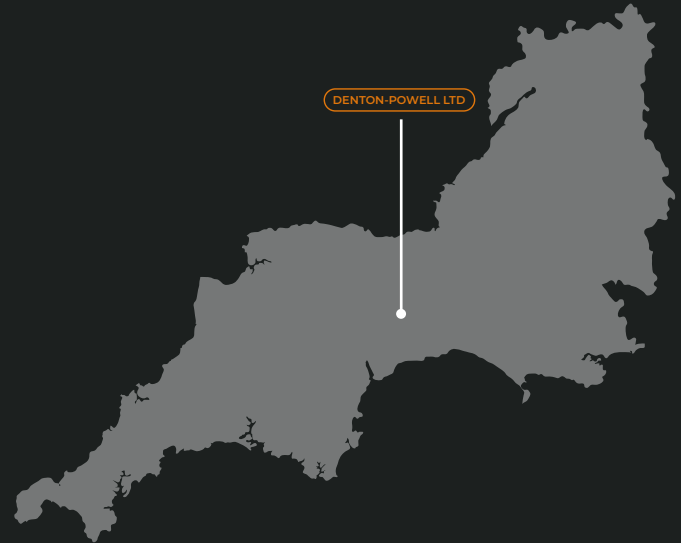

UNPARALLELED QUALITY

Opting for British manufacturing ensures exceptional quality, as it adheres to strict industry standards and regulations. By choosing us, you can trust that your steel fabrications will meet and exceed your expectations.

SUSTAINABILITY

Choosing British manufacturing promotes sustainability. Local production minimizes carbon emissions associated with long-distance transportation, contributing to a greener future.

A large-scale construction site featuring a complex steel framework for a multi-story building. The structure is composed of numerous vertical columns and horizontal beams, creating a grid-like pattern. The scene is captured during the "golden hour" of sunset, with a warm, orange glow from the sun on the left side, casting long shadows and highlighting the metallic surfaces. The sky is a deep blue with scattered, wispy white clouds. In the upper right quadrant, the text "British built. And proud." is displayed in a clean, white, sans-serif font. A thin vertical orange line is positioned to the left of the text, extending from the top of the frame down to the level of the text.

**British built.
And proud.**

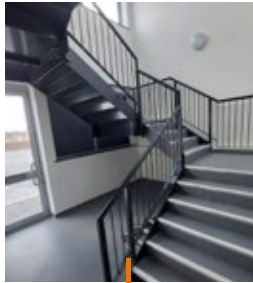

OUR **INDUSTRY SECTORS**

Denton Powell takes pride in its ability to provide bespoke products for a wide range of industry sectors. With extensive experience and expertise, Denton Powell offers tailored solutions for domestic and commercial projects, meeting the unique requirements of each client. We understand the unique demands of the every sector, and with such diverse expertise and commitment to customisation, clients from various industry sectors can rely on us to provide top-quality, bespoke steel products in the most demanding of applications.

"Fabrication is the backbone of a building's structure, providing strength, stability, and longevity through precision engineering and high-quality materials"

OUR DISCIPLINES

CE MARKING EXC2 STANDARD

Complying to industry standards and accreditations ensuring build quality. All steel from approved suppliers

STEEL MODELLING

Our design team use various design software platforms to design and model such as advanced steel, Revit and Auto CAD

SITE ERECTING

With multiple installation teams we have the flexibility to install in most environments with fully qualified fitters.

TAKING DESIGN TO SITE

Using the latest industry specific software Fieldwire enables the design and installation to interact with the drawings. Streamlining communication and providing a platform to deliver projects QA to the client.

"We can undertake large scale steel construction projects from initial design, manufacture through to completion. Delivering the entire service at comprehensive prices to highest workmanship."

STRUCTURAL STEELWORK

"At Denton-Powell Ltd we specialise in high-quality architectural metalwork including staircases, handrailing, balustrades, steel & glass canopy fabrication."

ARCHITECTURAL STEELWORK

OUR DISCIPLINES

BALUSTRADES

Steel frame, stainless and free-standing glass balustrades. Using the latest innovative solutions for top-quality balustrades.

RAMPS AND WALKWAYS

Predominately delivering ramps to the health care and education sector. Using various non-slip finishes guaranteeing mobility to all areas.

STREET FURNITURE

Relishing in putting our design expertise to the test we have manufactured some exciting and unusual items for a variety of clients.

CANOPY FABRICATION

Ability to expertly fabricate and assemble structures that provide shade, protection, and aesthetic appeal for outdoor spaces.

OUR DISCIPLINES

COMMERCIAL STAIRCASES

Our expertise lies in crafting sturdy and visually appealing commercial building staircases, designed to meet the highest industry standards

DOMESTIC STAIRCASES

We take pride in fabricating custom domestic staircases that enhance the aesthetic appeal and functionality of residential spaces

FIRE ESCAPES

With a focus on safety and compliance, we specialise in manufacturing durable and reliable fire escape staircases for emergency situations.

GALVANISED FINISHING

Utilising galvanised steel our staircases ensures exceptional durability, corrosion resistance, and longevity, surpassing industry standards

"We can design, manufacture and deliver staircases of all shapes and sizes. From large commercial feature stairs cases to domestic spiral stairs."

BESPOKE STAIRCASES

"No matter what the environment, we build strong foundation for the food and processing industries with our aluminium and stainless steel bump rails, platforms and kick plates."

ALUMINIUM & STAINLESS STEEL

OUR DISCIPLINES

BUMP RAIL/TANKS / RACKS

Specialising in installations within the food and leisure industry, we offer top-quality bump rails, tanks, and racks for enhanced functionality and safety.

FOOD INDUSTRY

We are able to manufacture to food grade requirements and high-level production processes.

KICK PLATES

Custom made aluminum kick plates that protect doors from damage with easy installation

PLATFORMS & BALUSTRADES

Ability to produce Stainless steel platforms & balustrades designed for specific needs in both 304 and 316 grade materials.

OUR DISCIPLINES

ACCESS LADDERS

Fixed or collapsible vertical ladders – In galvanised or aluminium with various Hoops and gated roof access.

BOLLARDS

Light weight or heavy duty for any protection requirements. A range of finishes including hi visibility paint.

GPR FLOORING

Quick and light weight way of filling in voids and service voids safely. Various types supporting methods make it a versatile solution.

SAFETY FIRST

We understand the important of providing top quality safety equipment for the fall protection and access industry.

"With quality at the forefront, we can manufacture equipment specifically to cater for the needs of the fall protection, access and safety market."

ACCESS & SAFETY

"Our prefabricated and retrofit solutions offer structurally sound and weatherproof options for buildings of all sizes, ensuring maximum protection against the environment."

WEATHERING & ROOFING

OUR DISCIPLINES

ROOF BOXES

Weathering system for service penetrations provides a proprietary and guaranteed solution to the inherent problems associated with bringing pipes, cables and ducts through the waterproofing layer at roof level.

FLASHINGS

All flashing pressed in house with the ability to produce none standard profiles for different applications.

SHEETING

UK wide installation teams well equipped to carry out standard and insulated sheet panels.

PROTECTION

Our products have the ability to withstand extreme conditions ensuring maximum safety and protection is provided for occupants and stock.

OUR ACCREDITATIONS

BS-EN 1090-1

This standard sets out the requirements for the conformity assessment of structural components and kits for steel structures. This marking indicates that our products comply with all applicable safety, health, and environmental protection requirements.

We understand the importance of being accredited for industry standards and certifications. We proudly hold accreditation for various renowned standards, such as BS-EN1090-1, CHAS (Contractors Health and Safety Assessment Scheme), and SAFE CONTRACTOR approved. These accreditations demonstrate our commitment to achieving excellence in our operations and maintaining the highest standards of quality, safety, and professionalism.

CHAS ACCREDITED

The Contractors Health and Safety Assessment Scheme (CHAS) was created by experienced health and safety professionals in 1997 to improve health and safety standards in the UK. CHAS certification assists buyers and suppliers in the process of health and safety competence assessment.

SAFE-CONTRACTOR

Safecontractor is the market-leading health & safety accreditation, helping contractors and organisations become healthier, safer, and stronger. Being Safecontractor accredited, we are able to demonstrate safe working practices throughout our entire organisation.

FIELDWIRE

Our company employs Fieldwire, a cloud-based construction management software that enhances project efficiency by streamlining workflows, improving productivity, and enabling real-time collaboration on construction tasks, plans, and communication.

BY HOLDING THESE INDUSTRY ACCREDITATIONS, WE DIFFERENTIATE OURSELVES FROM COMPETITORS, INSTILL TRUST IN OUR CLIENTS, AND PROVIDE PEACE OF MIND THAT WE OPERATE ACCORDING TO RECOGNISED INDUSTRY STANDARDS.

**Creativity
meets
structural
excellence.**

A close-up photograph of a welder in a dark blue protective suit and helmet, working on a metal structure. The welder is holding a welding torch, and a bright, intense light is visible at the point of contact, creating a shower of sparks. The background is blurred, showing industrial equipment and lights. The overall scene is dynamic and focused on the craft of welding.
